

左手的戀愛法則

Author's Note

Hello everyone, nice to meet you. I'm Asumi Miyabe, number one fan of Kazunari Ake and a comic artist who draws the minimal explicit scenes. I'm very grateful to everyone who's supporting my first manga series. The only reason why it's become a manga series is because of the readers, friends, families, relatives, and also the one who gave me a helping hand, Miss Marika Sashiki, who never complained even once, despite all the late night shifts. Also, there's the editor responsible for me, who persevered. Oh, as well as everyone who has always supported me. I am really very, very grateful.

My childhood dream was to become a manga artist and now that I'm actually publishing a manga series, I'm really happy. When I found my manga in a bookstore, I immediately cried up a storm, grabbed the salesperson and yelled, "This is my book!" That's plain stuff, isn't it? (sweats) Ahh, I didn't really do that.

Kedomono ShounenShoujo

This is my first work that has been serialized. When it was going to be serialized, I got really insecure, "Can I really draw a story that's going to have three volumes?" I really was a little lost. Luckily, the vibrant main character carried the storyline, so I was happy while drawing it. Actually, in the original plot that was made up in Volume One, Keshin and Karasuba were supposed to be harmonious. In Volume Two, there was supposed to be an appearance of a female doctor who likes the handsome Karasuba.

After listening to the suggestions of people around me, I felt that it would be rather interesting for the story to focus on improving Karasuba's unique physique instead. Hence, this was how the story developed. Karasuba's family, which made an appearance in Chapter Three, has received excellent comments, which made me really happy. As the submission of drafts was imminent, I was a little bothered by designing the love scenes! (laughs)

Even though there were many twists and turns throughout the series, when I look back, it's actually a pretty memorable journey. That's right. By the way, Karasuba's appearance was based off of Kazunari Ake, the celebrity I was talking about earlier. About the Kazunari posters sent by the readers, I was crying while putting them up! I'm really grateful for them. It's so great to become a manga artist! (bursts into tears)

The Left-Hand Rule of Love END

The Left-Hand Rule of Love

I still remember the
(Fleming's Left-Hand Rule) that I
learned in middle school (I think), so I've used it as a topic.
Unlabeled Readers sent letters telling me, "I've also used these
hand signals in class" or, "There's actually a message about Flem-
ing's Left-Hand Rule..." Although, back when I was in school, I
thought that once we'd be out in society, we wouldn't be using that
knowledge anymore, but it has actually been a big help in my work.
It seems that I have Mr. Fleming to thank for that.

When I went back and did some further
research, there's actually a "Right-Hand Rule" as well! Oh
however, the reason why I chose the left hand was because "The
Right-Hand Rule of Love" doesn't sound as smooth!

It seems that a lot of people came to learn me
due to this chapter, and it was around that time that my
editor started giving me the nickname "About-That, how
embarrassing! How nice!"

His Warmth, Her Breath

Don't worry,
no spoilers.

From this work
onwards, I've begun to go crazy over
Lazamon. I don't know why, but I just really
love him. I don't know if it's because I want to de-
scribe this budding love that I have, but this chapter
seems to be one that has the best comments I was
surprised!! And it's also from the start of this chap-
ter that my work started depicting love scenes that
are a little more explicit!!! Before that, I always
felt embarrassed, thinking I'm not suited for this
kind of genre. But now I am... Smooth! Even the
editor/editor told me, "Although you said you wanted
to draw something innocent, I tried my best, and..."
So I'm repeating at the moment, thinking,
Never say never!
